

Spanish for You!

Simple. Effective. Affordable

Class Use Tips

- **Use the SAME theme with all grades to streamline your planning!** Or, choose a different theme for different grades so your students rotate through new content each year.
- Each theme lasts an entire school year.
- Themes are available for grades 3-4, 5-6, and 7-8.
- The grade levels do not indicate Spanish experience, but rather HOW the material is taught is done in a way appropriate for children of that age/grade.
- **There is flexibility grouping students.** For example:
 - You can use a grades 3-4 level with a class of 3rd-5th graders.
 - You can use a grades 5-6 level with a class of 4th-6th graders.
 - You can use a grades 7-8 level with a class of 6th-8th graders.
- **You can place experienced Spanish for You! students and inexperienced students together at the beginning of a themed package.** Students who have had Spanish for You! before will continue to progress while new students are seamlessly integrated.
- After you teach a theme one year, choose another to teach the next year. They can be done in any order!
