Simple. Effective. Affordable.

Co-op Grade Levels Flexibility

- There are 6 school-year-long themed courses, each available in grade levels 3-4, 5-6, and 7-8.
- The grade levels are indicative of student grade level in school, not Spanish experience.
- **There is a LOT of flexibility using the grade levels.**
 - **Examples:**
 - You can use a grades 3-4 level with 3rd-5th graders.
 - You can use a grades 5-6 level with 4th-6th graders.
 - You can use a grades 7-8 level with 6th-8th graders.
 - The grades 5-6 and 7-8 levels are very similar in how they teach and pace through the content. They can be used very easily with grades 4-8.
 - The grades 3-4 level is most important for 3rd graders.
 - Some co-ops have used a grades 3-4 level with students up through 8th grade. The older students still learn the same as they would with the older grade levels, but the lessons accommodate the younger students.
- **Be sure that whatever grade level teacher package you use, any student enrolled in that class orders the same grade level in their student package.**
- After you teach a theme one year, choose another to teach the next year. They can be done in any order.
- Completing 3 to 4 themes is the approximate equivalent of a first-year high school class.
